## 1F Zoom Classes

 WEEK 6 TERM 32021The Zoom meeting ID and passwords for this week are:

| Class | Zoom Meeting ID |  |  | Zoom Meeting Password |  |
| :--- | :--- | :--- | :--- | :--- | :---: |
| 1 F | Morning am | Afternoon pm | Morning am | Afternoon pm |  |
|  | 69512646680 | 61582934607 | $\mathbf{5 8 4 1 2 7}$ | $\mathbf{2 5 0 0 9 4}$ |  |

Each class will have a Zoom class in the morning and another, with different content, in the afternoon. Each session will be approximately $30-45$ minutes as indicated. Students are expected to attend both the morning and afternoon session each day. The video conference room is like a classroom, and the same school behaviour and discipline policies apply to this environment. Students need to access Zoom via https://nsweducation.zoom.us/ and are required to use their DoE student portal login to gain access. The DoE user ID and DoE password will be the same as last week.

Monday 16 August, Tuesday 17 August, Wednesday 18 August, Thursday 19 August and Friday 20 August

| Time | Class |
| :--- | :--- |
| 9.30 am | KK \& KW \& 5T \& 6B |
| 10.30 am | 1F \& 1W \& 2M \& 2R |
| 11.30 am | 3R \& 3H \& 4H |
| 12.15 pm | KK \& KW \& 5T \& 6B |
| 1.30 pm | 1F \& 1W \& 2M \& 2R |
| 2.15 pm | 3R \& 3H \& 4H |

# Week 6 Term 3 - Learning from Home Stage 1 Year 1 and 2 

You may need help from a parent/carer and possibly resources from your teacher.
One activity has been selected for feedback. It is highlighted on the timetable.

|  | Monday | Tuesday | Wednesday | Thursday | Friday |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Morning | Spelling Reading Writing ZOOM 10:30am | Spelling Reading Writing ZOOM 10:30am | Spelling Reading Writing ZOOM 10:30am | Spelling Reading Writing ZOOM 10:30am | Spelling Reading Writing ZOOM 10:30am |
| Break | Break | Break | Break | Break | Break |
| Middle | Mathematics | Mathematics | Mathematics | Mathematics | Mathematics |
| Break | Break | Break | Break | Break | Break |
| Afternoon | ZOOM 1:30pm Science | ZOOM 1:30pm | $\begin{gathered} \text { ZOOM 1:30pm } \\ \text { Wellbeing } \end{gathered}$ | ZOOM 1:30pm PDHPE | ZOOM 1:30pm Music |

## It's Science Week!

This week you will get to have fun learning about science experiments and completing some activities if you choose.

Over the page you will find some ideas that you might like to choose from, or you can think of your own creation.

Every afternoon in our ZOOM call, students will be sharing their science fun with the class.

We have made some daily tasks optional so you will have time to complete your science experiments.
These tasks are highlighted in green on the timetable.
K-2 Science Week - Food Different by Design

$$
\text { Week } 6 \text { is National Science Week. This year, the school theme for National Science Week is }
$$

'Food: Different by Design'. All activities in this week's K-2 grid are related to food.

> homemade goodies.

Invent a machine to make good healthy lunches at school.

What is the difference between carnivores and herbivores? Find pictures of herbivores and carnivores and compare their teeth. Create a mind map of the food they eat.
Create your own decorative jar or paper and ribbon. Fill it with

Construct a model of your favourite Construct a model of your favourite food. Write an information card to put with your model.

Create a new breakfast cereal.
Design the cereal box it will be sold in.

If you were mining for chocolate chips, describe how you might get the chocolate chips out of the
biscuit without breaking it. Write a method for this task.

Make a list of sweet, sour and bitfer
foods. Draw your favourites. information book titled 'Healthy
Food'.

Make a food alphabet book. 'Aa' -
Design a book cover for an
Design a salad that is all colours of the rainbow. Write a recipe. take a photo of your salad. Design a salad th
the rainbow. Write
take a photo of
apple, 'Bb' - banana, 'Cc' cucumber..

Using adjectives, describe your favourite food. Create a poster using these descriptive words.
Make a list of sweet, sour and bitter

## MONDAY - English

## Spelling

- Ask a family member to pre-test you with the Week 6 spelling words. If a family member cannot help you, choose words that you find tricky to spell.

| Year 1 students should | Year 2 students should |
| :---: | :---: |
| choose 10 words from the |  |
| choose 12-15 words from |  |
| spelling list to complete the |  |
| the spelling list to complete |  |
| daily activities. | the daily activities. |

| Year 1 Week 6 Spelling Words |  |  |
| :---: | :---: | :---: |
| ¢figer button |  |  |
|  |  |  |
| tree | Exiension | Mercury |
| try | crust | Venus |
| trap | front | Earth |
| truck | kitten | Mars |
| went | plant | Jupiter |
| want | pretty | Saturn |
| tent | spent | Uranus |
| bent | stairs | Neptune |
| best | station | Demon |
| lost | street | talon |
| last | television | tinge |
| fast | terrible | forso |
| stay | toast | tremble |
| start | tonight | trinket |
| little | travel | timbre |

|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |

Can do:
Slxipping Spelling
Skip and spell one of your spelling words at the same time! With each jump, say the next letter in your spelling word. How many times can you spell your spelling word before you stop skipping?

## Reading

Read the book "Do not lick this book" on

## https://www.storyboxlibrary.com.au/stories/do-not-lick-this-book

Scan your QR Code
to view the story:

Min is a microbe. She is small. Very small. In fact, so small that you'd need to look through a microscope to see her. Watch this story and follow Min on an adventure to amazing places she's never seen before - like the icy glaciers of your tooth or the twisted, tangled jungle that is your shirt.

This task starts on Monday and finishes on Friday. Be ready to make some scientific discoveries! You will need some family help to set up the experiment and somewhere special to keep your experiment safe.
You will need some equipment, but it can be found in the kitchen. Each day you will need to fill in the chart with your observations.

## Germ Experiment

## What you need:

- 5 Slices of bread
- 5 Zip lock bags
- Permanent marker
- Soap and water
- Hand sanitiser
- Glove or tongs
- Prepare your equipment.
- Prepare you bags by labelling each one with the following labels:
- Untouched
- Touched with unwashed hands
- Touched with hands washed with water
- Touched with hands washed with hand sanitiser
- Touched with hands washed with soap and water for 20 seconds
- Wearing gloves (or using tongs), place one piece of bread in the bag labelled,'untouched'.
- Touch a piece of bread with dirty hands and place it in the bag labelled, 'Touched with unwashed hands'.
- Wash your hands with water only before touching a piece of bread and placing it in the bag labelled, 'touched with hands washed with water'.
- Sanitise your hands before touching a piece of bread and placing it in the bag labelled, 'touched with hands washed with hand sanitiser.
- Wash your hands with soap and water for twenty seconds before touching a piece of bread and placing it in the bag labelled, 'touched with hands washed with soap and water'.
- Seal the bags and place them somewhere you can observe them well for a few weeks.
- Observe the bags daily, while discussing, writing, measuring or drawing changes you observe in the slices of bread.
- Discuss answers to questions such as:
- Which slice of bread got mouldy first?
- Which grows the most mould?
- Which grows the least?

Carefully observe the slices of bread each day.
Write up or draw what you see using the table on the following page. If you can keep the slices for an extra week - you will be surprised!

Fill in this table each day with the observations you make. Try to make your observations at the same time each day.

|  |  |  |  | Untouched <br> Touched with <br> uncashed <br> hands | Touched with <br> hands washed <br> with water |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Monday |  |  | Touched with <br> hands washed <br> hands washed <br> with hand <br> sanitiser <br> with soap <br> and water <br> for 20 <br> seconds |  |  |
| Tuesday |  |  |  |  |  |
| Wednesday |  |  |  |  |  |
| Thursday |  |  |  |  |  |
| Friday |  |  |  |  |  |

Answer these questions at the end of the week on Friday and share your results in your class Zoom session.

Which slice of bread got mouldy first?
$\qquad$
$\qquad$

Which grew the most mould?
$\qquad$
$\qquad$

Which grew the least mould?
$\qquad$
$\qquad$

Explain why do you think this happened?

What can we learn from this experiment?
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$

## Writing <br> This task is optional for this week.

Handwriting

- Today we will be practicing our letters that go above the lines:
b d
- Watch the short videos and copy along.

Put your b's and d's to bed!
Now, complete the worksheet by tracing and then copying it below.

## $b b b b b d d d d d$

## bed bed bed bed bed

# bend dob band dab 

$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$

## Editing

Choose ONE of the editing activities to complete below.

## Option A is easier

## Option B is more challenging

Option A = The Dog Shelter
Find the mistakes in this text. You will need to:

- find and fix 3 spelling mistakes
- add 3 capital letters
- add 2 full stops and 1 exclamation mark.
my famaly and I went to the animal shelter to get a pet dog
Animals go to the shelter if they don't hav a home. there were many dogs and cats waiting to find a new home All the dogs were verry cute. it was hard to choose one

Write the text correctly on the lines below.
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$

Correct the text using editing marks. There are 15 errors to find.
what animals have no blood, brian, backbone, eyes, arms or legs, and dont even breathe. Sea jellies
Sea jellys are invertebrates, which means they lack a backbone. There skin is so thin that oxygen passes to it from the water, so they don't need to breathe or have blood or nerves. They're bodys may be clear, orange, red, pink or blue some species are tiny and near invisible, but others grow huge. The tentacles on a lion's main sea jelly can grew up to 27 metres - thats longer than a bus

| Editing Marks |  |
| :---: | :---: |
| Capital letter | 三 |
| End punctuation | ○(1) ${ }^{\text {( }}$ |
| Insert a word | 人 |
| Change to lower case /ic. |  |
| Take something out 07 |  |
| Check spelling |  |
| New paragraph | \1 |

Write the text correctly on the lines below.

## MONDAY - Mathematics

## Minute Maths

Skip counting is a great way to figure out how much money we need to pay for items in a shop. Use skip counting by 2, 5 and 10 to circle the correct number of coins to pay for each toy.

| Item for sale | Use skip counting to circle the correct number of coins needed to pay for each toy. |
| :---: | :---: |
|  | Skip count by 5 |
|  | Skip count by 10 |
|  | Skip count by 2 |
|  |  |
|  |  |
|  |  |

## Number and Algebra - Must Do

Watch this video about sharing and dividing into equal groups and arrays. Level 1: Division by Sharing.

Use a pencil to share these tasty goodies equally between different numbers of people.

| e.g. Share between 3 | How many does <br> each person get? | What does the <br> calculation look like? |
| :--- | :--- | :---: |
|  | (1) 234 | $3 \div 3=1$ |

a. Share between 2

b. Share between 4
2345
$12 \div 4=$
c. Share between 3

d. Share between 5

$$
2345
$$

$10 \div 5=$

$$
2345
$$

$10 \div 2=$

$$
2345
$$

$16 \div 4=$

Write two division sentences for each array.
The first one has been done for you.

| $\begin{array}{llll} \curvearrowleft & \curvearrowleft & \curvearrowleft & \curvearrowleft \\ \curvearrowleft & \curvearrowleft & \curvearrowleft & \curvearrowleft \\ \mapsto & \curvearrowleft & \curvearrowleft & \curvearrowleft \end{array}$ |  |  |
| :---: | :---: | :---: |
| $\begin{aligned} & 12 \div 4=3 \\ & 12 \div 3=4 \end{aligned}$ |  |  |
|  |  |  |
|  |  |  |
|  |  |  |

Can you think of a different calculation and draw your own array?

| $\square$ |
| :--- |
|  |

## We Are Going on an Array Hunt!

An array is when a picture or an object is put into a column or row. It can help us count and group more efficiently.

Go on a hunt in the space around you to find different sorts of arrays. How many can you spot in real life?

Draw the arrays below and write calculations to go with them.

## Example:

$2 \times 5=10$
$5 \times 2=10$
$5+5=10$
$2+2+2+2+2=10$

## MONDAY - Science

How and why do we collect information about the weather?

How can we collect information about
the weather?
Think about this question. Chat about the pictures.

PARTI
Why we need to know about the weather

3 Write or draw pictures about the weather each instrument measures.

## Optional Experiment

You will need adult help for this experiment. It can be done at any time.

## Materials needed

## DESIGN AND PRODUCTION ACTIVITY PAGE 5

## Make a rain gauge

- Variety of plastic containers (bottle/jug)
- Marker pen
- Funnel
- Blocks (for measuring)
- Watering can (for testing)

Optional:

- Pebbles (for weight)
- Scissors and tape

Watch this video to help you plan your experiment
https://www.youtube.com/embed/0NXa7zxCCzA

Step 1 Draw and label your materials.

## Materials I will use

Step 2
Draw and label your rain gauge.

## My design

Step 4 When it rains, take a photo of your rain gauge to show how much rain water it collects.

## TUESDAY - English

## Spelling

## Must do:

- Using the table in Monday's spelling, practise your spelling words.

Remember to look, say, cover, write, check and correct each word.

Cover

- Read the sentence below. Can you find the common sound? Underline, circle or highlight the letter / letters that make the common sound.

## The kitten turned towards the tree and went up to the town.

- The letters ir, ur, or and er can all represent the same sound. Using the table below, brainstorm as many words that you can think of.

You may use the spelling lists to help you.

| $\mathbf{t}$ | tree, |
| :---: | :--- |
| $\mathbf{t t}$ | button, |

Write st or tr to finish the words. Write one of your words for each picture. Write words to rhyme.

## Can Do:

A contraction is a shortened form of a word (or group of words) that leaves out certain letters or sounds. In most contractions, an apostrophe represents the missing letters.

For example:
don't can't
Colour the contractions green.
Colour other words blue.

## Reading

This task is optional
Read the following passages about main ideas and details. Complete the questions.

## Level 1:

The main idea of a picture tells what the picture is mostly about.

1. Circle the words that tell what this picture is mostly about.

The girl is holding the ball.
The girl is throwing the ball.
The girl is kicking the ball.
2. Circle the words that tell what this picture is mostly about.

3. Draw a picture that is mostly about something you might see in a school playground.

The main idea of your picture is what your picture is mostly about.

## The main idea of a story is what the whole story is mostly about.

The details are small pieces of information that make the story more interesting.

> Luca's grandpa lives on a farm. His grandpa has a big garden, and many animals. When Luca was little, he was afraid of the chickens. When he helped his grandpa feed the chickens, the chickens chased him, crying, "Cluck, cluck, cluck!" But his grandpa showed him how to shoo the chickens away with his hand, saying, "Shoo chicks, shoo chicks!" Luca still doesn't like the chickens much, but he isn't afraid of them now. He feels very grown up.

1. What is this whole story mostly about? Circle your answer.

| Grandpa's garden | Luca and the <br> chickens | Luca's favorite <br> animal |
| :--- | :--- | :--- |

2. Which of these is a small piece of information from the story that makes the story more interesting? Circle your answer.

| Luca drew a <br> picture of the farm. | Luca helped pick <br> the vegetables. | The chickens said <br> "Cluck, cluck, cluck!" |
| :--- | :--- | :--- |

Alex's grandpa lives in a big city, on the $18^{\text {th }}$ floor of an apartment building. From his grandpa's windows, Alex can see the whole city. Alex used to be afraid to look out the windows, because they were up so high. But his grandpa would sit with Alex, and point out all the interesting things in the city. Now Alex likes to look out his grandpa's windows. He can see the library, and the train station, and the park. He feels very grown up.
3. What is this whole story mostly about? Circle your answer.

| Alex takes a train <br> ride | Alex rides the <br> elevator | Alex and his <br> grandpa's windows |
| :--- | :--- | :--- |

4. Which of these is a small piece of information from the story that makes the story more interesting? Circle your answer.

Grandpa's apartment is on the $18^{\text {th }}$ floor.

The train station is a busy place.

There is an elevator in Alex's grandpa's building.

## Writing

## Separating Fact from Fiction

## Must Do:

Miss Fagan has a dog called Billie.
Billie has superpowers and can fly.

Which of these sentences is make-believe (imaginary)? How do you know?

Which of these sentences is real (factual)? How do you know?
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$

## Real or Make Believe Characters

Colour the REAL characters BLUE.

Can do:
Watch the two videos below
The Very Hungry Caterpillar
www.youtube.com/embed/75NQK-Sm1YY

Life of a Butterfly
www.youtube.com/embed/dM71jKNuk-M

Complete the Venn Diagram comparing ‘The Very Hungry Caterpillar’ and 'Life of a Butterfly'. What is similar? What is different?

Imaginary texts tell stories about make-believe events and are intended to entertain.
Informative texts provide facts about real things and are intended to inform.

## TUESDAY - Mathematics

## Minute Maths

Yesterday we practised skip counting to help us pay for items in a shop.

| Item for sale | Use skip counting to circle the correct number of notes or coins needed to pay for each toy. |
| :---: | :---: |
|  | Skip count by 5 |
|  | Skip count by 10 |
|  | Skip count by 2 |
|  |  |
|  |  |
|  |  |

## Number and Algebra - Must Do

Read these division word problems carefully to make a picture that shows the answer. You write your answer as equal groups or as an array. For a challenge, try doing both. At the end, write your own division word problem and draw the answer.

| Question | Level 1: Equal groups | Level 2: Array |
| :---: | :---: | :---: |
| There are 18 eggs divided equally into 3 nests. How many eggs will be in each nest? |  |  |
| There are 27 boys. If the boys are divided equally into 3 teams, how many boys will be on each team? |  |  |
| There are 16 cans. If these cans are divided equally into 4 coolers, how many cans will be in each cooler? |  |  |
| If a teacher puts 24 desks in three equal length rows, how many desks are in each row? |  |  |
| Write your own division story! |  |  |

## Number and Algebra - Can Do

Can you use skip counting or repeated addition to quickly solve these times tables wheels?

As a challenge, time yourself for each wheel.

## For example:

| $3 \times 10$ | Skip counting | Repeated addition |
| :---: | :---: | :---: |
|  | $10,20,30$ | $10+10+10=30$ |

## TUESDAY - Art

Take a line for a walk and see what you find.

## Materials:

- 1 x blank piece of white paper
- $1 \times$ pencil or black pen
- Colouring tools of your choice: coloured pencils or pens, textas, crayons or paint

## Steps/method:

1. Place your pencil or pen on a clean piece of white paper.
2. Move it around the page in any direction, creating straight lines and loops. Make sure some of your lines intersect each other.
3. Look at your paper from all angles. Can you see anything that looks familiar to you? A bird, a leaf, a car etc.
4. If you see something paint it in. If you can't see anything, choose some areas and colour them using pencils, pens, texta, paint or crayons.

Here are some examples for you to look at:

## WEDNESDAY - English

## Spelling

## Must do:

- Using the table in Monday's spelling, practise your spelling words.

Remember to look, say, cover, write, check and correct each word.

## Check

Colour words from each list the same colour if they have the same meaning.
post begin
cost twine
little road
start send
street price
string small

Colour words from each list the same colour if they have the opposite meaning.
stand right taking worst left sit best slow
first giving
fast last

## Can do:

Write the contractions for the following words.
Finish the sentences with these contractions.
د Go to Helpful Hint 13 .
were not was not
are not $\qquad$ do not $\qquad$ did not $\qquad$

## Turtles

$\qquad$ live on land.

Turtles $\qquad$ mammals.
$\qquad$ lay their eggs.

## Reading

Read Mr Archimedes' Bath by Pamela Allen.
https://www.youtube.com/embed/gkA3SY68_Yk

Cut and glue the story events in order.

Level 1

## Mr Archimedes' Bath by Pamela Allen

Mr Archimedes put just a little water in the bath. Everyone climbed in and the water rose. Who was doing this?

Each animal had a turn NOT hopping in the bath. But the water still rose!
"Eureka!" Mr Archimedes solve the mystery. Everyone was making the bath water rise.

Mr Archimedes' bath always overflowed and he always had to clean up the mess. Why was this happening?

Mr Archimedes tried on his own. The water rose. He jumped in and out, and in and out.

For the rest of the night they all had fun getting in and out of the bath and making more mess than ever!

This page has been intentionally left blank

## Level 2

## Mr Archimedes' Bath by Pamela Allen

This time Goat stayed out of the bath but the water rose
again.
To start, Mr Archimedes put just a little water in the bath. Everyone climbed in and the water rose. What a mystery!

Mr Archimedes ordered Wombat out. But the water rose, again!
"Eureka!" Mr Archimedes solve the mystery. Everyone was making the bath water rise.

When they all hopped out. Mr Archimedes measured again. The water had gone down! This is a mystery!

Kangaroo stayed out of the bath but the water still rose.
Mr Archimedes' bath always overflowed and he always had to clean up the mess.

Mr Archimedes tried on his own. The water rose. He jumped in and out, and in and out.

For the rest of the night they all had fun getting in and out of the bath and making more mess than ever I

## Writing

## Fact or Opinion?

Watch the video 'Fact or Opinion for Kids'
www.youtube.com/embed/Flyt5pEcE g

Write the facts and opinions about caterpillars into the correct box.

## Facts and Opinions - Caterpillars

## WEDNESDAY - Mathematics

## Minute Maths

Word problems help us to use our Maths skills in everyday situations. Write an interesting story or word problem to match these sharing or division sentences. For example:

8 shared between $2=$ $\qquad$ $8 \div 2=$ $\qquad$
There were 8 apples to share between 2 horses. Each horse ate 4 apples.

| Level 1: sharing | Level 2: division |  |
| :--- | :--- | :--- | :--- |
| 9 <br> shared <br> between <br> $3=$ |  | $9 \div 3=$ |

## Number and Algebra - Must Do

## True or False

Can you use your skills at sharing into equal groups and dividing to work out if these number sentences are true or false? Draw a picture to prove your answer!

| Level 1: Sharing into groups |  |
| :---: | :---: |
| Question | True or false (draw a picture to prove it!) |
| 8 shared between 4 = 2 |  |
| 15 shared between $3=3$ |  |
| 20 shared between $2=11$ <br>  <br>  |  |
| Level 2: Use an array |  |
| 30 $\div 2=16$ |  |
| $17 \div 1=17$ |  |
| $18 \div 6=3$ |  |
| Level 3: Using remainders |  |
| $15 \div 2=$ <br> 7 with a remainder of 1 |  |
| $\begin{aligned} & 25 \div 5= \\ & 5 \text { with a remainder of } 3 \end{aligned}$ |  |
| $30 \div 4=$ <br> 7 with a remainder of 3 |  |

## Number and Algebra - Can Do

Can you read the clues to put the items in order? Write your answer for each clue card in the space below.

## Follow the Clues

Put the numbers in order using the clues:

## $8 \quad 15$ <br> 12 <br> 4

The first number is double the third number. The second number is in the 5 times table. The fourth number is 20-8.

## Follow the Clues

Put the coins in order using the clues:

The second coin is the same as 25 c coins.
The first coin is worth half as much as the second coin.

The fourth coin doubled makes $\$ 1$.
Five of the third coin make a $\$ 1$.

## Answer:

## Answer:

Follow the Clues
Follow the Clues
Put the shapes in order using the clues:

All the sides of the third shape are equal.
The second shape has only one side.
The fourth shape has three corners.
Put the numbers in order using the clues:
40
13
19

The fourth number is even.
The second number is the sum of 6 and 7 .
The first number is less than 20.

Answer:

## Answer:

## WEDNESDAY - Wellbeing Time <br> This task is optional

Use this time to focus on your wellbeing.

You might like to:

- catch-up on some unfinished work
- write a nice comment to a classmate on Seesaw
- organise to call one of your friends or family members and check in on how they are going
- go for a walk or a bike ride
- spend some time outdoors looking at the clouds
- spend some time with a family member or pet
- paint or draw a picture
- read a chapter of a book
- put on some music and dance around your room
- watch a documentary about something you are interested in
- design a game for your friends or family to play together
- help a family member (vacuum the floor or read to a younger sibling)

## THURSDAY - English

## Spelling

## Must do:

- Using the table in Monday's spelling, practise your spelling words.

Remember to look, say, cover, write, check and correct each word.

Can do:

Carefully search the garden to find sticks, leaves, twigs etc to make the letters of your spelling words.

## Capital Letters for Names

Names begin with capital letters.
For example: This is David Lee.
Mr Smith is our teacher.

Rewrite the following sentences correctly. The names are missing capitals!

1. The ball rolled to tom.
$\qquad$
2. A bird chased kim down the street.
$\qquad$
3. ben and pat want to go to the zoo.
$\qquad$
4. Dad went to school to speak to mrs fin.
$\qquad$
$\qquad$
5. Five dogs ran past susie and jill.
$\qquad$
$\qquad$
6. Officer tim drove the police car.

## Reading and punctuation.

Level 2

## Capital Letters: Place Names

Capital letters are needed for names of specific places.
Incorrect: Our family holidays in new york $\rangle$
Correct: Our family holidays in New York.
Remember, general places (beach, city, forest, desert) don't need capitals.
Rewrite the following sentences, adding capitals where they belong.

1. The capital city of germany is berlin.
2. Our family moved from canberra to brisbane.
3. The world's largest rainforest is in south america.
4. Our class is visiting yellowstone national park.
5. We visited egypt to see the pyramids.
6. I would love to visit disneyland.
7. The largest country in the world is russia.
8. I have been to every continent except for antarctica.
9. John's favourite football team is manchester united.
10. Much of australia is desert.

## Writing <br> Just the Facts!

## What Are Informative Texts?

Informative texts provide facts about a particular topic. Some of these topics might include people, places, animals and objects.

people

animals

places

objects

## Types of Informative Texts

Some types of informative texts include:

- instructions
- information reports
- factual descriptions
- newspaper articles
- television documentaries.

## The Facts On Facts!

Informative texts contain facts. Facts are true statements about the topic that can be proven. For example...

Fire fighters
fight fires.

A mountain is a landform.

Cows eat grass.

Diggers are big machines.

## Fact File - Doctors

Here are some facts that you might find in an informative text about doctors.

Doctors are a type of healthcare worker.

Doctors treat people who are sick or injured.

## Sometimes doctors

 use a stethoscope.To be a doctor, you must study medicine.

Choose one of the images below and complete the fact file by writing four facts about your topic. Draw a picture of your topic in the middle of the fact file.

My family

My house

Spiders

Vegetables

## Facts About

$\qquad$
Fact 1 Fact 3

## THURSDAY - Mathematics

## Minute Maths

Answer these word problems about measurement. Write your answers in the space below each question.

| Year 1 | Year 2 |
| :---: | :---: |
| Length Challenge Cards <br> 4. My pencil case is 12 paperclips long, my friends pencil case is 4 fewer paperclips long. How many paperclips long is my friends pencil case? | Real World Area Problems <br> I was laying carpet squares in my living room and bedroom. My living room used 24 carpet squares and my bedroom used 30 carpet squares. How |
| Answer: | Answer: |
| Length Challenge Cards <br> 6. My lunch box is 16 interlocking cubes long, my friend's lunch box is 22 interlocking cubes long. How many more interlocking cubes is my friend's lunch box compared to my lunch box? | A baker was covering the top surface of this square cake with MnMs. They covered half of the area using 20 MnMs . How many in total do they |
| Answer: | Answer: |

## Measurement and Geometry - Year 1 Length

This activity uses a paperclip. If you don't have a paperclip you can use something else such as a block or a toy car or a pencil sharpener.

## Paperclip Length

Estimate, then measure the objects below using paperclips.

| Object | Estimate | Measurement |
| :--- | :--- | :--- |
| Desk | I estimate my <br> desk to be about <br> paperclips long. | My desk is <br> paperclips long. |
| Ruler | I estimate my <br> ruler to be about <br> paperclips long. | My ruler is <br> paperclips long. |
| Pencil | I estimate the <br> tablet to be about <br> paperclips long. | The tablet is <br> paperclips long. |
|  | I estimate |  |
| In estimate my |  |  |
| to be about |  |  |
| paperclips long. |  |  |
| paperclips long. |  |  |

## Measurement and Geometry - Year 2 Area

Choose a suitable item to measure the area of these objects. You need to use the same item to measure all the objects so don't choose something too big or too small. Some suitable item might be: a small book, a coaster, a DVD case or a big square fridge magnet.

If you need a reminder about how to measure the area of a surface, watch last week's area video by scanning this QR code. If you don't have any of these items at home or at school, no problem! Just choose something else of a similar size.

My measuring item is a $\qquad$

| Object | Estimate | Measurement |
| :--- | :--- | :--- |
|  |  |  |

## THURSDAY - PDHPE

## Lesson 5 - Keeping safe around medicines

It's important we understand what medicine is and who we can stay safe around medicines.

Activity 1 - Watch the You Tube video below to learn about safety with medicines.
https://www.youtube.com/embed/90K6 OdWxTA

## What Is Medicine?

> Medicines are drugs that have been created to help us get better when we don't feel very well.
> However, we should think carefully about when we take medicines and how we store them.

## What Does Medicine Look Like?

Medicines can come in bottles or boxes. They can be a tablet, a powder or a liquid. Some can be breathed in and others can be rubbed into our skin.

Activity 2 - Complete the fun cut and stick activity below to sort out medicines from sweets and other household objects.

## Medicine or Not?

## I Can Identify Medicines

## Cut out the pictures below and stick them in the right place.

## Activity 3 - Fill in the blanks using the words below.

## Safety with Medicine

Fill in the blanks.

Medicine is there to help us feel better when we are $\qquad$ .

Children should always ask a $\qquad$ to help them take medicine if you need it.
$\qquad$ any medicine after it is finished or past its expiry date. Medicine should be stored up $\qquad$ in a cupboard or in the fridge to keep them out of the reach of $\qquad$ and pets.

## Word Bank

unwell parent throw away high children

Activity 4 - Who gives us medicine - Think about the people it is safe to take medicine from. Circle them below.

## Who gives us medicines?

Circle the people it is safe to take medicine from.

Parent
School nurse
Doctor
Person in
the park

Person on
Friend
Neighbour
the bus
School teacher
Swimming teacher
Older student in school
Shop keeper

## Activity 5 - PE Session

How can we solve problems when moving?

## Students will learn how to compare different types of throws and identify which ones are easier and harder.

## Things you will need

Help from an adult
A soft object to throw (for example, soft ball, pair of socks, soft toy, scrunched-up paper)
An object or landmark to create a target for the object to hit (for example, bucket, a long piece of string laid in a circle, an ' $X$ ' formed by two pieces of tape/material, a t-shirt laid on the ground, a chair/bench, a wall, a tree)

Refer to 'Snakes alive' game card for suggestions of what this activity could look like. (Sport Australia, 2019. Playing for life)

## 

## SPORTAUS

## Snakes alive

The first ball rolled becomes the head of the snake. Players deliver one ball at a time, aiming to place each ball behind the previous one. The aim is to form the longest snake. 4 or more per team.

What you need
Cones to separate groups
$>$ One softball or medium-sized ball per team (snake head)
> One ball per player [e.g. tennis ball (body of snake)
> Tape or cones to mark the minimum throw line

## What to do

> Each team plays the first ball on a signal.
$>$ If the first ball strays to another team's area, the ball is played again
$>$ The second ball is played on a signal. and so on for the remainder of the balls.
$\rightarrow$ To ensure the last ball is a meaningful throw, a line is placed in front of each team and the ball must go beyond the line for the ball to count - otherwise every team will finish with a python!
> Alternatively, set a maximum length for the snake [e.g. 4 metres].

Change it
> Snake head - require a minimum distance from the start-line for the position of the 'snake's head'.
> Balls - use different rolling balls.
> Goalball - use a goalball Imakes a noise when it rolls) and a caller to assist a player with limited vision. Make your own goalball by wrapping a volleyball in plastic and securing with tape.
$>$ Provide eye-shades for half the players to promote communication

## Scoring

$>$ The longest snake is the winner.
$>$ Measure in a straight line from head to tail.

Safety
> The game stops if players are required to retrieve 'lost' balls.

## Ask the players

> What strategies are you using to get the ball to land in the targeted area? (e.g. how do you alter direction and distance).

## LEARNING INTENTION

Snakes ailve requires students to roll their ball with accuracy and take into account the placement of their team mates balis in order to create a 'snake.

## Students:

1) Choose a safe playing area where you can throw a number of soft objects.
2) Select 5 different soft objects to throw.
3) Choose a 'starting point' where you will throw the objects from.
4) Underarm throw one object at a time, aiming to place each object behind the previous one. This will form a 'snake'.

- Underarm throw the first object and mark where it lands. This creates the 'head' of the snake.
- Underarm throw the next object trying to land it before the 'head'.
- Repeat the underarm throws with your remaining throwing objects.

5) Repeat the game using an overarm throw.
6) Repeat the game using a throwing style of your choice.
7) Repeat the game 3 times for each throwing style.

## Snakes alive

Sport Australia 2019, Playing for life

Discuss the following reflective questions with your teacher or parent/caregiver.
What type of throw was easier? Why?

What type of throw was harder? Why?

Which object was easier to throw? Why?

Which object was harder to throw? Why?

## FRIDAY - English

## Spelling

## Must do:

- Using the table in Monday's spelling, practise your spelling words.

Remember to look, say, cover, write, check and correct each word.

- Have a family member test you on your spelling words. How did you go?

## Can do:

Level 1: Carefully read through the story and answer the questions.

|  <br>  <br>  <br>  <br>  <br> pDu әч 'uoos 'w!̣ pəx!! ## Writing

## Informative Texts- Text Structure

Watch the video 'Informational Writing for Kids'
www.youtube.com/embed/DN4d76QP MA

Information Reports usually follow this Structure:

## Information Report - Structure

## General Description

What are you going to describe? What group does it belong to?

## Fact 1

Describe one aspect of the subject using facts.

## Fact 2

Describe one aspect of the subject using facts.

## Fact 3

Describe one aspect of the subject using facts.

## Concluding Sentence

Conclude with an interesting fact about the subject.

Read the text below on Elephants.
Using your colours, see if you can find:

- the general description
- the three facts
- the concluding sentence.
(The answers are on the next page)

## Information Report Example - Elephants

All elephants are mammals, like humans.
They usually live in grasslands, in Africa and Asia.
Elephants have bulky bodies, large ears and a long trunk.
They are all herbivores, which means they survive on a diet of plants.
Most elephants can live for 50 to 70 years in the wild.

## Answers:

## Information Report - Elephants

General Classification
All elephants are mammals, like humans.

Fact 1: Habitat
They usually live in grasslands, in Africa and Asia.

Fact 2: Appearance
Elephants have bulky bodies, large ears and a long trunk.

Fact 3: Diet They are herbivores, which means they survive on plants.

## Concluding Sentence

 Most elephants can live for 50 to 70 years.

Sort the facts below by WRITING them under the correct heading Baleen Whales

[^1]
## FRIDAY - Mathematics

## Minute Maths

Answer these word problems about measurement. Write your answers in the space below each question.

| Year 1 | Year 2 |
| :---: | :---: |
| Length Challenge Cards <br> 7. Which words would you put between these two objects; taller than, shorter than, the same as? | Tim wanted to buy a big rug for his living room. He wanted the biggest one he could find. Which rug has the largest area? |
| Answer: | Answer: |
| Length Challenge Cards <br> 1. There are 3 different sized shoes, the blue shoe is 8 paperclips long, the slipper is 7 paperclips long and the boot is 9 paperclips long. Order the shoes from shortest to longest. | My teacher needed to measure the area of her new tables to see if they had a larger or smaller area than her old tables. Which object should she use to measure the area and why? |
| Answer: | Answer: |

## Measurement and Geometry - Year 1 Length Measuring in Body Parts

## Amazing Fact

In ancient times, records show that length was first measured using body parts - the forearm, hand or finger.

## Challenge

Your forearm is the length between your fingertip and your elbow.
Your handspan is the distance between your thumb and little finger when your fingers are stretched out.
Your finger would be your index or 'first' finger
Using your forearm, handspan and finger, choose different objects around the room and measure their length. You might need someone to help you.

## Measuring in Body Parts

| Object | Forearm | Handspan | Finger |
| :--- | :--- | :--- | :--- |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |

1. What surprised you about this way of measuring?
$\qquad$
$\qquad$
$\qquad$
$\qquad$
2. Do you think it is an accurate way to measure? Explain your reasons.
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$

Create a square grid version of yourself or your favourite animal and count the squares to work out the area! Use the examples below as inspiration.

The rules:

- You can't use curved lines or diagonal lines.
- Each square you use in your drawing needs to be fully coloured in.
- Only draw around the outside of each square, not through the middle of it.

The area of $\qquad$ is $\qquad$ squares

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

## Let's begin with last week's silly song: The Animal Fair

## https://www.youtube.com/watch?v=teW-EF7avXs

I went to the animal fair, The birds and the beasts were there. The big baboon by the light of the moon

Was combing his auburn hair.
The monkey bumped the skunk,
And sat on the elephant's trunk,
The elephant sneezed and fell on his knees
And that was the end of the monk.

## Rhythm Reading

Last week we listened to two pieces from Carnival of the Animals.
See if you can clap or play along with the rhythms of the Tortoise, the speed is Largo. The second is more suitable for year 2.

## https://www.youtube.com/embed/M7C6 B1xloQ
